

Sonoma County Animal Services Partnership

Animal Services Resource Guide

Introduction

Throughout the cities and unincorporated areas of Sonoma County many people and organizations are devoted to the care and well-being of animals, providing a range of sheltering, field services, rabies control, education and outreach, and other services.

The **Sonoma County Animal Services Partnership** recognizes the great potential to improve outcomes and achieve efficiencies through the creation of a more collaborative and coordinated system of animal services in Sonoma County.

To this end, we created this resource guide to help the residents of Sonoma County to find available shelters, rescue organizations and other support services throughout the County and region. Please contact Michelle Denham at michelle.denham@sonoma-county.org or 707-565-4478 to add or update resources listed in this guide.

Vision

Sonoma County will be a safe and caring community that protects the health and well-being of all animals and people; a place where animals and people are valued, cared for, and recognized as vital parts of a healthy community.
